Jonathan Vaughan, Implementation & Training Manager with **emis intellectual technology™** said:

“The open day is the perfect opportunity for users looking to select a new Case & Practice Management solution to come and see Seneca for themselves. The day will be completely interactive with opportunities to have a play with Seneca to see just how good the system really is.

It’s very kind of Schofield Sweeney Solicitors to be a host and allows people attending the event to hear about how the Seneca system is used in a real working environment.

The fact that the presentations are aimed at the lunchtime period means that we welcome people who wish to join us during their lunch break.”
