

PRESS RELEASE

Date:

April 2007

emis awarded ISO27001

emis intellectual technology™ has been awarded the prestigious ISO27001 information security management system following an intensive period of preparation and training.

Ann Worthington, **emis** Director of QA, said:

“Whilst most of the necessary procedures were already in place it was good to work with such an enthusiastic team in improving processes and training each team member.”

Chris Spencer, Solicitor and Development Director commented:

“I see ISO27001 as of vital benefit to our clients who, as professionals handling, client information every day, are very mindful of the need for information security and rightly want their suppliers to not only do the right thing but to be independently audited and certified.”

BACKGROUND/EDITORS NOTES

emis intellectual technology:

- Is an innovative software house providing totally integrated practice, contact, file, activity and knowledge management tools for lawyers and other professionals
- Is lead by Chris Spencer, a solicitor with over 25 years experience in IT as a developer, designer and user
- Visit our websites at: www.emisit.com and www.senecacpd.com

Seneca PMS:

- Is a contact, file, practice and activity management solution that incorporates the following all for one price in one purchase:
 1. Contact, file and activity management (clients range from trade unions to trade mark agents, charities to law firms)
 2. Accounts and practice management
 3. Document management
 4. Workflow management
 5. Digital Dictation
 6. Business process management (HR/ Marketing etc)

ISO/IEC 27001

Is an information security management system (ISMS) standard published in October 2005 by the International Organization for Standardization and the International Electrotechnical Commission.

It is intended to be used in conjunction with ISO 17799, the Code of Practice for Information Security Management, which lists security control objectives and recommends a range of specific security controls.
